EDUCATION

BCA — Comp. Applications

Currently Pursuing • 2026

Focus: Programming & Web Dev

SKILL PROFICIENCY

C / C++ 85%

HTML & CSS 80%

JavaScript 65%

Video Editing 75%

Problem Solving 88%

LANGUAGES

- Hindi — Native
- English — Proficient

INTERESTS

- Web Development
- Competitive Coding
- Content Creation
- UI/UX Exploration

ABOUT ME

Driven and self-motivated BCA student with a strong foundation in C and C++ programming and a creative eye for front-end web development. Demonstrated ability to learn rapidly and deliver quality projects independently. Known for meticulous attention to detail, a collaborative spirit, and genuine passion for technology — qualities that make me a reliable and enthusiastic contributor to any development team.

WHY HIRE ME — KEY STRENGTHS

- Fast Learner**
Mastered C++, HTML, CSS & JS independently — no formal training needed.
- Problem Solver**
Approaches every bug and challenge with analytical, logical thinking.
- Creative + Technical**
Rare combination of coding skills and visual creativity via video editing.
- Collaborative**
Works effectively in teams, values feedback, and communicates clearly.
- Self-Driven**
Built real projects without internship guidance — pure initiative and grit.

TECHNICAL SKILLS

Programming:

C Language

C++

OOP

Data Structures

Algorithms

Web Dev:

HTML5

CSS3

JavaScript

Responsive Design

Flexbox

Creative:

Video Editing

Motion Graphics

Color Grading

UI/UX Basics

PROJECTS

Personal Portfolio Website

HTML5 • CSS3 • JavaScript

- Designed & built a fully responsive portfolio from scratch — showcasing skills, projects & personality
- Implemented modern UI with animations, Flexbox layout & mobile-first approach
- Demonstrates real-world ability to plan, design and deploy a complete web product independently

C++ OOP Console Applications

C • C++ • Data Structures

- Built multiple console apps applying OOP principles: classes, inheritance, polymorphism & encapsulation
- Implemented linked lists, stacks, queues & sorting algorithms — strong CS fundamentals
- Each project completed independently, proving disciplined self-study and execution capability
